Loyola University |
 Lake Shore Campus
 1032 W Sheridan Rd.,
 Chicago, IL 60626

We hope you'll join us!

Our Annual Conference is the statewide gathering for leaders, staff, volunteers and partners to connect with peers, share resources, and learn from others who deeply understand the mission and challenges of serving uninsured and underinsured patients. The conference creates space to adapt to new realities, align around shared goals, and amplify collective impact across the state.

What began as a clinic-only convening has evolved into a broader environment of mission-aligned collaboration. Today the conference welcomes vendors, community organizations, funders, and advocates who invest in strengthening the safety net. Attendees engage in workshops, hear from national healthcare leaders, and interact with exhibitors throughout the day—gaining tools, partnerships, and strategies they can immediately apply within their organizations.

Join us to support a conference grounded in connection, learning, and appreciation for the clinics that make healthcare accessible in Illinois — and join the movement to adapt to new challenges, align resources, and amplify solutions within the safety-net healthcare ecosystem.
